How to Build and Apply a Human Resource Disaster Management System

Point 6: Essential Business Functions Point 7: Human Resources/ Employee Training
Intel Corporation, with ~ 100,000 employees globally, has built and applied a very successfully HR disaster management system. Tested through numerous disasters, Mr. Turner will describe from a corporate perspective how an integrated proactive and reactive process can effectively provide for the health and welfare of employees and their family members *and* recover essential business functions, processes and systems.

Complete the remainder of the 12 Point Program by August 2007 and receive the
“Recognition of Readiness” Award from Governor Huntsman and Lt. Governor Herbert!
